

Anti-Protein-tyrosine-phosphatase MKP1, C-terminal antibody

Catalog: PHY1860A

Product Information

Description:	Rabbit polyclonal antibody					
Background:	In plants, the mitogen-activated protein kinase (MAPK) cascades are the					
	central signaling pathways of the complicated defense network triggered by the					
	perception of pathogen-associated molecular patterns to repel pathogens. The					
	Arabidopsis thaliana MAPK phosphatase 1 (AtMKP1) negatively regulates the					
	activation of MAPKs.					
Synonyms:	MKP1, AOD13, ARABIDOPSIS MITOGEN-ACTIVATED PROTEIN KINASE					
	PHOSPHATASE 1, ATMKP1, MITOGEN-ACTIVATED PROTEIN KINASE					
	PHOSPHATASE 1					
Immunogen:	KLH-conjugated synthetic peptide (19 aa from C terminal section) derived from					
	Arabidopsis thaliana MKP1 (AT3G55270).					
Form:	Lyophilized					
Quantity:	150 μg					
Purification:	Immunogen affinity purified					
Reconstitution:	Reconstitution with 150 μl of sterile 1XPBS (PH=7.4).					
	"Note: please spin tube briefly prior to opening it to avoid any losses that might					
	occur from lyophilized material adhering to the cap or sides of the tube".					
Stability &	Use a manual defrost freezer and avoid repeated freeze-thaw cycles.					
Storage:	12 months from date of receipt, -20 to -70 $^\circ C$ as supplied.					
	6 months, -20 to -70 $^\circ\!{\rm C}$ under sterile conditions after reconstitution.					
	1 month, 2 to 8 $^\circ\!{ m C}$ under sterile conditions after reconstitution.					
Shipping:	The product is shipped at 4 $^\circ\!\mathrm{C}.$ Upon receipt, store it immediately at the					
	temperature recommended above.					

Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000)				
	Note: Optimal dilutions/concentrations should be determined by the				
	end user.				
Expected/apparent MW:	86 kDa				

Predicted Reactivity:

Among species analyzed, the sequence of the synthetic peptide used for immunization is 80-99% homologues with the sequence in *Brassica rapa*, *Brassica napus*.

For more species homologues information, please contact tech support at <u>tech@phytoab.com</u>.

Application Example

		Recom

34							
26							
		PHY	1860A				

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 47 kDa.
Electrophoresis: 12% SDS-PAGE
Transfer: blotting to NC (nitrocellulose) membrane for 1 h.
Blocking: 5% skim milk at RT or 4°C for 1 h.
Primary antibody: 1:1000 dilution overnight at 4°C.
Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).
Detection: using chemiluminescence substrate and image were captured with CCD camera.

Research Use Only
