Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000)				
	Note: Optimal dilutions/concentrations should be determined by the				
	end user.				
Expected / apparent MW:	50 kDa				
Predicted Reactivity:	Among species analyzed, the sequence of the synthetic peptide used				
	for immunization is 80-99% homologues with the sequence in Gossypium raimondii, Brassica napus, Brassica rapa, Cucumis sativus, Glycine max, Populus trichocarpa.				

The sequence of the synthetic peptide used for immunization is 86% (12 / 14) homologues with the sequence in AT1G48640. For more species homologues information, please contact tech support at tech@phytoab.com.
