

Anti-Wiskott-aldrich syndrome family protein, putative (DUF1118) antibody

Catalog: PHY0687S

Product Information

Description:	Rabbit polyclonal antibody
Background:	RIQ proteins contribute to NPQ and grana stacking in ways different from those of CURT1 functions, they may directly regulate the extent of grana stacking and, consequently, the optimization of the LHCII organization. RIQ proteins contain RIQ1 (AT5G08050) and RIQ2 (AT1G74730).
Synonyms:	RIQ1, F13G24.250
Immunogen:	Recombinant mature protein of RIQ1 derived from <i>Arabidopsis thaliana</i> (AT5G08050).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum
Reconstitution:	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability & Storage:	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
Expected / apparent MW:	17 kDa
Confirmed Reactivity:	Coming soon
Predicted Reactivity:	For more species homologues information, please contact tech
