

## Anti-Transcription factor bHLH122 antibody

Catalog: PHY3750S

## **Product Information**

| Description:           | Rabbit polyclonal antibody  |  |
|------------------------|---|--|
| Background:            | FBH3 involves in photoperiodism flowering. FBH3 binds to the E-box                          |  |
|                        | cis-element in the CONSTANS (CO) promoter to regulate flowering. And It can                 |  |
|                        | interact with CFL1 and along with CFLAP2 negatively regulates cuticle                       |  |
|                        | development.  |  |
| Synonyms:              | FBH3, ABA-RESPONSIVE KINASE SUBSTRATE 1, AKS1, ATCFL1                                       |  |
|                        | ASSOCIATED PROTEIN 1, CFLAP1, FLOWERING BHLH 3  |  |
| Immunogen:             | KLH-conjugated synthetic peptide (15 aa from C terminal section) derived from               |  |
|                        | Arabidopsis thaliana FBH3 (AT1G51140).  |  |
| Form:                  | Lyophilized   |  |
| Quantity:              | 150 μg  |  |
| Purification:          | Serum   |  |
|                        | Peptide affinity form antibody available upon request at info@phytoab.com.                  |  |
| <b>Reconstitution:</b> | Reconstitution with 150µl of sterile water.   |  |
|                        | "Note: please spin tube briefly prior to opening it to avoid any losses that might          |  |
|                        | occur from lyophilized material adhering to the cap or sides of the tube".                  |  |
| Stability &            | Use a manual defrost freezer and avoid repeated freeze-thaw cycles.                         |  |
| Storage:               | 12 months from date of receipt, -20 to -70 $^\circ C$ as supplied.                          |  |
|                        | 6 months, -20 to -70 $^\circ\!\!\!\!^\circ$ under sterile conditions after reconstitution.  |  |
|                        | 1 month, 2 to 8 $^\circ C$ under sterile conditions after reconstitution.                   |  |
| Shipping:              | The product is shipped at 4 $^\circ\!\mathrm{C}.$ Upon receipt, store it immediately at the |  |
|                        | temperature recommended above.  |  |

## **Application Information**

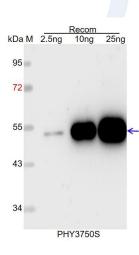

| <b>Recommended Dilution:</b> | Western Blot (1:1000-1:2000)                                       |
|------------------------------|--|
|                              | Note: Optimal dilutions/concentrations should be determined by the |
|                              | end user.  |
| Expected / apparent MW:      | 42 kDa   |
| Predicted Reactivity:        | Among species analyzed, the sequence of the synthetic peptide used |
|                              | for immunization is 80-99% homologues with the sequence in         |

PhytoAB Inc.

*Brassica rapa*, *Brassica napus*. For more species homologues information, please contact tech support at <u>tech@phytoab.com</u>.

## **Application Example**

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 52 kDa.

Electrophoresis: 12% SDS-PAGE

Transfer: blotting to NC (nitrocellulose) membrane for 1 h.

**Blocking:** 5% skim milk at RT or  $4^{\circ}$ C for 1 h.

**Primary antibody:** 1:1000 dilution overnight at 4 °C.

**Secondary antibody:** 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

**Detection:** using chemiluminescence substrate and image were captured with CCD camera.

**Research Use Only**
