

Anti-L-galactono-1,4-lactone dehydrogenase, mitochondrial, C-terminal antibody

Catalog: PHY1090S

Product Information

Description:	Rabbit polyclonal antibody
Background:	Complex I is the largest protein complex of the oxidative phosphorylation system in mitochondrial and it catalyzes NADH-quinone oxidoreduction. Complex I represents the main entrance site for electrons into the respiratory electron transfer chain. In Arabidopsis, Complex I have at least 49 subunits and GLDH (AT3G47930) is a assembly factor of Complex I.
Synonyms:	GLDH, ATGLDH, L-GALACTONO-1,4-LACTONE DEHYDROGENASE
Immunogen:	KLH-conjugated synthetic peptide (18 aa from C terminal section) derived from <i>Arabidopsis thaliana</i> GLDH (AT3G47930).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum Peptide affinity form antibody available upon request at info@phytoab.com .
Reconstitution:	Reconstitution with 150µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability &Storage:	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

Recommended Dilution:	Western Blot(1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
Expected / apparent MW:	69 kDa

Research Use Only

Predicted Reactivity:

Among species analyzed, the sequence of the synthetic peptide used for immunization is 100% homologues with the sequence in *Brassica napus*, *Brassica rapa* and 80-99% homologues with the sequence in *Gossypium raimondii*, *Glycine max*, *Populus trichocarpa*, *Zea mays*, *Oryza sativa*, *Setaria viridis*, *Triticum aestivum*, *Panicum virgatum*, *Spinacia oleracea*, *Medicago truncatula*, *Vitis vinifera*, *Cucumis sativus*, *Sorghum bicolor*, *Hordeum vulgare*, *Solanum tuberosum*, *Solanum lycopersicum*.
