

## Anti-Light-harvesting complex stress-related protein 1/3, chloroplastic, C-terminal antibody

Catalog: PHY5515S

## **Product Information**

| Description:           | Rabbit polyclonal antibody  |
|------------------------|---|
| Background:            | LHCSR1/3.1/3.2  |
| Synonyms:              | LHCSR1/3.1/3.2  |
| Immunogen:             | KLH-conjugated synthetic peptide (16 aa from C terminal section) derived from               |
|                        | Chlamydomonas reinhardtii LHCSR1 (Cre08.g365900), LHCSR3.1                                  |
|                        | (Cre08.g367500) and LHCSR3.2 (Cre08.g367400).   |
| Form:                  | Lyophilized   |
| Quantity:              | 150 µg  |
| Purification:          | Serum   |
|                        | Peptide affinity form antibody available upon request at info@phytoab.com.                  |
| <b>Reconstitution:</b> | Reconstitution with 150 µl of sterile water.  |
|                        | "Note: please spin tube briefly prior to opening it to avoid any losses that might          |
|                        | occur from lyophilized material adhering to the cap or sides of the tube".                  |
| Stability &            | Use a manual defrost freezer and avoid repeated freeze-thaw cycles.                         |
| Storage:               | 12 months from date of receipt, -20 to -70 $^\circ \! \mathbb{C}$ as supplied.              |
|                        | 6 months, -20 to -70 $^\circ$ C under sterile conditions after reconstitution.              |
|                        | 1 month, 2 to 8 $^{\circ}$ C under sterile conditions after reconstitution.                 |
| Shipping:              | The product is shipped at 4 $^\circ\!\mathrm{C}.$ Upon receipt, store it immediately at the |
|                        | temperature recommended above.  |
|                        |   |

## **Application Information**

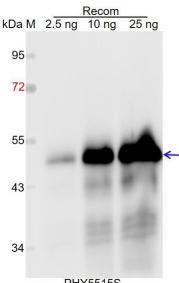

| <b>Recommended Dilution:</b> | Western Blot (1:1000-1:2000)                                       |
|------------------------------|--|
|                              | Note: Optimal dilutions/concentrations should be determined by the |
|                              | end user.  |
| Expected / apparent MW:      | 28 kDa   |
| Predicted Reactivity:        | Among species analyzed, the sequence of the synthetic peptide used |
|                              | for immunization is 80-99% homologues with the sequence in         |
|                              | Physcomitrium patens.  |

Research Use Only

For more species homologues information, please contact tech support at tech@phytoab.com.

## **Application Example**

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 52 kDa. Electrophoresis: 12% SDS-PAGE Transfer: blotting to NC (nitrocellulose) membrane for 1 h. **Blocking:** 5% skim milk at RT or  $4^{\circ}$ C for 1 h. Primary antibody: 1:1000 dilution overnight at 4°C. Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000). Detection: using chemiluminescence substrate and image were captured with CCD camera.
