

Anti-Succinate dehydrogenase subunit SDH5, mitochondrial antibody

Catalog: PHY0563S

Product Information

Description:	Rabbit polyclonal antibody
Background:	Mitochondrial succinate dehydrogenase complex is also called respiratory Complex II and it is an enzyme complex found in the inner mitochondrial membrane of eukaryotes. Succinate dehydrogenase complex catalyzes the oxidation of succinate to fumarate with the reduction of ubiquinone to ubiquinol. In <i>Arabidopsis</i> mitochondria, succinate dehydrogenase complex contains 8 subunits from SDH1-SDH8. SDH5 is encoded by AT1G47420.
Synonyms:	SDH5, SUCCINATE DEHYDROGENASE 5
Immunogen:	KLH-conjugated synthetic peptide (15 aa from Central section) derived from <i>Arabidopsis thaliana</i> SDH5 (AT1G47420).
Form:	Lyophilized
Quantity:	150 µg
Purification:	Serum Peptide affinity form antibody available upon request at info@phytoab.com .
Reconstitution:	Reconstitution with 150 µl of sterile water. "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".
Stability & Storage:	Use a manual defrost freezer and avoid repeated freeze-thaw cycles. 12 months from date of receipt, -20 to -70°C as supplied. 6 months, -20 to -70°C under sterile conditions after reconstitution. 1 month, 2 to 8°C under sterile conditions after reconstitution.
Shipping:	The product is shipped at 4°C. Upon receipt, store it immediately at the temperature recommended above.

Application Information

Recommended Dilution:	Western Blot (1:1000-1:2000) Note: Optimal dilutions/concentrations should be determined by the end user.
Expected / apparent MW:	28 kDa

Research Use Only

Predicted Reactivity:

Among species analyzed, the sequence of the synthetic peptide used for immunization is 80-99% homologues with the sequence in *Gossypium raimondii*, *Panicum virgatum*, *Brassica napus*, *Brassica rapa*, *Vitis vinifera*, *Sorghum bicolor*, *Populus trichocarpa*, *Zea mays*, *Setaria viridis*, *Sorghum bicolor*, *Triticum aestivum*, *Hordeum vulgare*, *Solanum tuberosum*, *Solanum lycopersicum*, *Nicotiana tabacum*. For more species homologues information, please contact tech support at tech@phytoab.com.
