

## **Anti-Transcription factor PAR2 antibody**

Catalog: PHY0737A

## **Product Information**

**Description:** Rabbit polyclonal antibody

Background: PHYTOCHROME RAPIDLY REGULATED2 (PAR2) is an atypical basic

helix-loop-helix (bHLP) protein. It is closely related to PAR1 (AT2G42870). Up regulated after simulated shade perception. It acts in the nucleus to control plant development and as a negative regulator of shade avoidance response. Functions as transcriptional repressor of auxin-responsive genes SAUR15

(AT4G38850) and SAUR68 (AT1G29510).

**Synonyms:** PAR2, HLH2, PHY RAPIDLY REGULATED 2

**Immunogen:** KLH-conjugated synthetic peptide (14 aa from N terminal section) derived from

Arabidopsis thaliana PAR2 (AT3G58850).

Form: Lyophilized

**Quantity:** 150 μg

Purification: Immunogen affinity purified

**Reconstitution:** Reconstitution with 150 µl of sterile 1XPBS (PH=7.4).

"Note: please spin tube briefly prior to opening it to avoid any losses that might

occur from lyophilized material adhering to the cap or sides of the tube".

**Stability &**Use a manual defrost freezer and avoid repeated freeze-thaw cycles.

**Storage:** 12 months from date of receipt, -20 to  $-70^{\circ}$ C as supplied.

6 months, -20 to -70 °C under sterile conditions after reconstitution.

1 month, 2 to 8°C under sterile conditions after reconstitution.

**Shipping:** The product is shipped at 4°C. Upon receipt, store it immediately at the

temperature recommended above.

## **Application Information**

**Recommended Dilution:** Western Blot (1:1000-1:2000)

Note: Optimal dilutions/concentrations should be determined by the

end user.

Expected / apparent MW: 13 kDa

Predicted Reactivity: Among species analyzed, the sequence of the synthetic peptide used

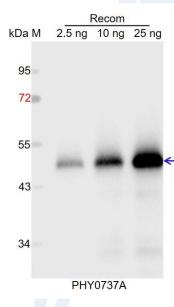

for immunization is 80-99% homologues with the sequence in

Brassica rapa, Brassica napus.

For more species homologues information, please contact tech support at <a href="tech@phytoab.com">tech@phytoab.com</a>.

## **Application Example**

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 47 kDa.

Electrophoresis: 12% SDS-PAGE

**Transfer:** blotting to NC (nitrocellulose) membrane for 1 h.

**Blocking:** 5% skim milk at RT or  $4^{\circ}$ C for 1 h.

**Primary antibody:** 1:1000 dilution overnight at 4°C.

Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L

(HRP) (Cat# PHY6000).

**Detection:** using chemiluminescence substrate and image were captured

with CCD camera.
