

# Anti-AT4G33480, C-terminal antibody

Catalog: PHY7314A

## **Product Information**

| Description:                   | Rabbit polyclonal antibody  |
|--------------------------------|---|
| Background:                    | AT4G33480   |
| Synonyms:                      | AT4G33480   |
| Immunogen:                     | KLH-conjugated synthetic peptide (15 aa from C terminal section) derived from   |
|                                | Arabidopsis thaliana AT4G33480.   |
| Form:                          | Lyophilized   |
| Quantity:                      | 150 µg  |
| Purification:                  | Immunogen affinity purified   |
|                                |   |
| Reconstitution:                | Reconstitution with 150 µl of sterile 1XPBS (PH=7.4).   |
| Reconstitution:                | Reconstitution with 150 µl of sterile 1XPBS (PH=7.4).<br>"Note: please spin tube briefly prior to opening it to avoid any losses that might   |
| Reconstitution:                |   |
| Reconstitution:<br>Stability & | "Note: please spin tube briefly prior to opening it to avoid any losses that might  |
|                                | "Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube".   |
| Stability &                    | "Note: please spin tube briefly prior to opening it to avoid any losses that might<br>occur from lyophilized material adhering to the cap or sides of the tube".<br>Use a manual defrost freezer and avoid repeated freeze-thaw cycles.   |
| Stability &                    | "Note: please spin tube briefly prior to opening it to avoid any losses that might<br>occur from lyophilized material adhering to the cap or sides of the tube".<br>Use a manual defrost freezer and avoid repeated freeze-thaw cycles.<br>12 months from date of receipt, -20 to -70 °C as supplied.   |
| Stability &                    | <ul> <li>"Note: please spin tube briefly prior to opening it to avoid any losses that might occur from lyophilized material adhering to the cap or sides of the tube". Use a manual defrost freezer and avoid repeated freeze-thaw cycles.</li> <li>12 months from date of receipt, -20 to -70 °C as supplied.</li> <li>6 months, -20 to -70 °C under sterile conditions after reconstitution.</li> </ul> |

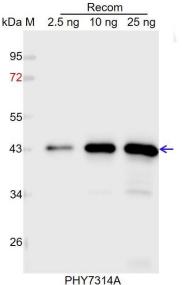

# **Application Information**

| <b>Recommended Dilution:</b> | Western Blot (1:1000-1:2000)  |
|------------------------------|---|
|                              | Note: Optimal dilutions/concentrations should be determined by the    |
|                              | end user.   |
| Expected / apparent MW:      | 37 kDa  |
| Predicted Reactivity:        | Among species analyzed, the sequence of the synthetic peptide         |
|                              | used for immunization is 100% homologues with the sequence in         |
|                              | <i>Brassica napus, Brassica rapa</i> , and 80-99% homologues with the |
|                              | sequence in <i>Cucumis sativus, Spinacia oleracea, Gossypium</i>      |
|                              | raimondii, Vitis vinifera, Nicotiana tabacum, Solanum lycopersicum.   |
|                              | For more species homologues information, please contact tech          |

### **Application Example**

Recom: 2.5 ng, 10 ng and 25 ng recombinant protein containing the peptide for immunization and having a molecular mass of 43 kDa. Electrophoresis: 12% SDS-PAGE Transfer: blotting to NC (nitrocellulose) membrane for 1 h. Blocking: 5% skim milk at RT or 4°C for 1 h. Primary antibody: 1:1000 dilution overnight at 4 °C.

Secondary antibody: 1:10000 dilution using Goat Anti-Rabbit IgG H&L (HRP) (Cat# PHY6000).

Detection: using chemiluminescence substrate and image were captured with CCD camera.
